

Mailbox regulations in accordance with the diagram below:

1. The support post should not be placed in the drainage ditch. If the berm is too narrow, the post should be placed on the backside of the drainage ditch.
2. Support arms longer than 4 feet should have angle supports which do not extend into unobstructed area which allow for snowplows.
3. The newspaper box should be attached to the support arm. This box should also not extend into the unobstructed area for snowplows.

Harborcreek Township will not repair and will not be responsible for any damage to mailboxes which are not installed to these specifications or mailboxes that are plastic (Rubbermaid, etc.).
